

HAPPY HALLOWEEN FROM HEIFER!

Carving a cute Heifer pumpkin is quick and easy with this stencil. Here's how:

1. Tape this stencil to your hollowed-out pumpkin. Feel free to trim any excess paper from the edges.
2. Use a sharp pointed object (like a sharpened pencil, awl, or pumpkin poker) to poke through the edges of the stencil to transfer the outline to the pumpkin surface.

3. Take off the stencil. You should see an outline of dots on your pumpkin surface!

4. Use a pumpkin carving knife, or small kitchen knife, to carefully cut away the parts marked in gray on your stencil. Be careful around the edges!

5. When you're done, wipe off any excess pumpkin shavings. Stick a candle inside and survey your handiwork. You did it!
